

Jens R. Victorin

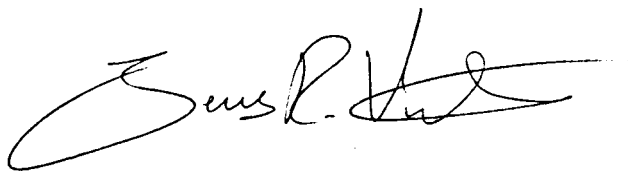

Knivsta 2007-02-02

Jag heter Jens och är en optimistisk person som tycker om att arbeta med problemlösning. Jag är 40 år och gift sedan 1996 med Catarina som är lärare i Sigtuna. Vi har tre barn som är 3, 8 och 10 år gamla och vi bor på landet längs länsväg 255 ca. 10 km norr om Sigtuna/Märsta.

Jag har arbetat med IS/IT sedan 1989, både som konsult och IT Manager med personalansvar. 1996 startade jag eget företag och har arbetat i denna form sedan dess.

De senaste åren har jag arbetat med att migrera både applikationer, i Microsoft och UNIX miljö, och hela system åt Ericsson på uppdrag av IBM. Jag har också arbetat med drift och underhåll av UNIX-system och databaser åt Svenska Handelsbanken AB. Mitt senaste uppdrag på banken innefattade bland annat att integrera 25 stycken fristående Solaris 8, 9 och 10 system med SAMBA till Microsoft Active Directory (Kerberos, LDAP etc.).

Jag är mycket förtjust i UNIX/Linux och datorer överhuvudtaget och tillbringar en hel del tid med gammal hårdvara hemma. Böcker är ett annat stort intresse samt film, naturvetenskap med mera.

Personal details

Name: Jens R. Victorin
Address: Gurresta, 741 91 KNIVSTA, SWEDEN
Phone: +46 (0)708 88 82 43
Born: March 22 1966, Eskilstuna, Sweden (660322-1711)

Education

1987 - 1988 Compulsory military service at KA2 coastal artillery in Karlskrona.
Ended duty with rank of warranty officer (Sergeant)

1982 - 1985 Three years of gymnasium in Nyköping studying
chemistry

9 years of compulsory school

Language

Native language Swedish, fluent in spoken and written English.

Interests

Computers, music, film, photography, home automation, astronomy and science are some of my interests. I also enjoy reading, particularly sci-fi and fantasy.

Environments

Some of the environments and applications I have experience of in no particular order:

Operating systems: Solaris, Linux, HP-UX, Win9x/NT/2k/XP

Databases: Sybase Adaptive Server, MS SQL Server, Oracle, MySQL, IBM DB2

Office applications: Microsoft Office, StarOffice, OpenOffice

Web: Apache Server, Internet Information Server

Configuration management: ClearCase, CVS etc.

File and print: CUPS, Samba

CRM etc: SAP R/3, SAP BW

Jens R. Victorin

Experience

- 2004 - 2006
- Migration of Solaris 8, 9, 10 SAMBA servers, including compilation of the source code to enable Kerberos authentication, to Microsoft Active Directory at Svenska Handelsbanken AB
- UNIX operation and maintenance at Svenska Handelsbanken AB of +100 (HP/AIX/Fujitsu-Siemens/Sun) UNIX servers running custom and third party financial applications serving traders worldwide. Troubleshooting Sybase database problems, operating system problems, upgrading systems, applying patches and performing security enhancements.
- Performing migration of Oracle-, SQL Server-, Sybase-databases, Apache-, IIS- webservers, ClearCase version control servers, CVS-repositories, applications and functionality between several windows and UNIX servers at IBM Svenska AB.
- 2003 - 2004
- Performing migration from a HP-UX 11i environment to Sun Solaris 8 of several business critical applications loading several GB of data daily from mainframes to a Sybase db with scripts in perl, ksh and code in C, handling 15% of Ericsson revenue for pricing, ordering and economic tracking for the Chinese market at Ericsson AB. Subsequent operation, maintenance and monitoring of the environment using tools such as BigBrother, Bacula and own scripts.
- 1996 - 2003
- Technical advisor regarding the installation, configuration and maintenance of a platform consisting of RedHat Linux 6.2, IBM HTTP Server, IBM Websphere and DB2 at Teligent Enterprise Systems AB during the development of a "prepaid" telecom solution for Optimal Telecom AB.
- Capacity planning and performance measurements of client/server applications in the Ericsson corporate WAN with the end users located in Shanghai, Beijing, Hong Kong and Guangzhou and the servers in Stockholm, Sweden.
- System Manager of a business integration laboratory environment consisting of several servers running HP-UX, Sun Solaris, RedHat Linux as well as Windows NT and 2000 on Intel and alpha processors. Applications in the lab include SAP R/3, Oracle 8i, SQL Server, MQ Series, Business Objects etc.
- 1994-1996
1989-1994
1988-1989
- Employee of **Cambridge Technology Partners AB**
Employee of **Teamco Närdatab AB**
Employee of **Systembolaget AB**
